Questions? admin@kdcandfilms.com

How a round works

- One player reads the Sitch aloud.
- Everyone chooses their move.
- If challenged, be ready to defend your decision — opponents decide who got it right.
- The double-points "Wow-me" bonus is decided by opponents after you defend your answer.
- Want extra tramlines? Set a timer after each question is answered.

Quick reminder

Sitch is best played together. Talk through each scenario, listen to every player, and celebrate smart choices.
