

Welcome to Sitch: Family Edition!

No downloads. No installation. Just open a browser.

Go to play.sitchthegame.com

To play:

1. Go to **play.sitchthegame.com**
2. Enter the unique license key from your purchase receipt into the black box "**ENTER UNLOCK CODE**". Keep this key somewhere **safe**. It's the only one you have, and for security purposes, we don't keep copies — each one is unique.
3. Play on any device: phone, tablet, or computer.

Your license key is in your Gumroad receipt email. It looks like:

XXXX-XXXX-XXXX-XXXX

Tip: Save your key in your phone or email so it's always handy.

How a round works

- One player reads the Sitch aloud.
- Everyone chooses their move.
- If challenged, be prepared to defend your decision — your opponents decide who got it right.
- The double-points bonus of "None of the above, I'm going to wow you with my answer" is also determined by your opponents after your response. You can defend it.
- Need some guidance or tramlines? Set a timer after each question is answered.

Quick Reminder

Sitch is best played together. Talk through each scenario, listen to every player, and celebrate smart choices.
